Volume 17, 1995

Contributor index on page 414.

A

Adenocarcinoma
- Comparison of Fluorescence *in Situ* Hybridization and Flow Cytometric DNA Ploidy Analysis in Paraffin-Embedded Prostatic Adenocarcinoma Specimens (Lifson et al), 1995;17:93–99
- Prognostic Histomorphometry in Colorectal Adenocarcinoma (Carson et al), 1995;17:109–112
- Use of High-Resolution Cytometry in Predicting the Biologic Behavior of T1 Adenocarcinoma of the Lung (Ikeda et al), 1995;17:69–74

Adenoma
- Knowledge-Guided Segmentation and Morphometric Analysis of Colorectal Dysplasia (Hamilton et al), 1995;17:172–182

Aneuploidy
- Comparison of DNA Measurement Performed by Flow and Image Cytometry of Embedded Breast Tissue Sections (Susnik et al), 1995;17:163–171
- DNA Aneuploidy, Increased Proliferation and Nuclear Area of Plasma Cells in Monoclonal Gammopathy of Undetermined Significance and Multiple Myeloma (Leo et al), 1995;17:113–120

Antigens
- Flow Cytometric Characterization of Proliferation-Associated Nuclear Antigen (p105) During the Cell Cycle in Normal Lymphocytes and Promyelocytic Leukemia Cells (HL-60) (Qiao et al), 1995;17:183–188

Aspiration biopsy
- Flow and Image Cytometric DNA Measurements in Fine Needle Aspiration Samples of Prostatic Neoplasms (Piaton et al), 1995;17:351–360
- Flow Cytometric DNA Measurements in Aspiration Biopsies and Surgical Specimens of Breast Cancer (Krogerus et al), 1995;17:309–313
- Image Analysis-Derived Morphometric Differences in Fine Needle Aspirates of Ductal and Lobular Breast Carcinoma (Yu et al), 1995;17:88–92
- Nuclear Texture in Poorly Differentiated Small Round Cell Tumors: Image Analysis Study of Fine Needle Aspiration Material (García-Bonafé and Moragas), 1995;17:189–196
- Quantitative Estimation of Mast Cells in Hodgkin's Disease and Reactive Lymphoid/Hyperplasia in Aspiration Cytology Smears (Dey and Karmakar), 1995;17:219–220 (Letter)

Aspiration cytology
- Morphologic and Planimetric Diagnosis of Follicular Thyroid Lesions on Fine Needle Aspiration Cytology (Fadda et al), 1995;17:247–256

Astrocytes
- Stereotactic Biopsies from Astrocytic Tumors: Diagnostic Information Contributed by the Quantitative Chromatin Pattern Description (Salmon et al), 1995;17:332–343

Axilla
- Immunohistochemical Detection and Significance of Axillary Lymph Node Micrometastases in Breast Carcinoma (Van Bogaert), 1995;17:75–76 (Letter)

B

Basin of attraction
- Classifying Cervical Cells Using a Recurrent Neural Network by Building Basins of Attraction (Brouwer and MacAuley), 1995;17:197–203

Bayesian analysis
- Management of Uncertainty in Breast Cancer Grading with Bayesian Belief Networks (Kronqvist et al), 1995;17:300–308

Biopsy
- Malignancy-Associated Changes in Bronchial Epithelial Cells in Biopsy Specimens (MacAulay et al), 1995;17:55–61

Bladder neoplasms
- Biologic Characteristics of T1 Papillary Bladder

Cancer: Flow Cytometric Study of Paraffin-Embedded Material (Bucci et al), 1995;17:121–128

Bladder washings

DNA Tetraploidy in Feulgen-Stained Bladder Washings Assessed by Image Cytometry (Kline et al), 1995;17:129–134

Brain neoplasms

Stereotactic Biopsies from Astrocytic Tumors: Diagnostic Information Contributed by the Quantitative Chromatin Pattern Description (Salmon et al), 1995;17:332–343

Breast neoplasms

Comparison of DNA Measurement Performed by Flow and Image Cytometry of Embedded Breast Tissue Sections (Susnik et al), 1995;17:163–171

Computer-Derived Nuclear "Grade" and Breast Cancer Prognosis (Wolberg et al), 1995;17:257–264

Correlation Between Ploidy Status, ERB-B2 and P53 Immunohistochemical Expression in Primary Breast Carcinoma (Midulla et al), 1995;17:157–162

Digitization of Microcalcifications in Breast Radiographs: Correlation with Pathologic Data (Charpin et al), 1995;17:230–240

DNA Flow Cytometry in Node-Positive Breast Cancer: Prognostic Value and Correlation with Morphologic and Clinical Factors (Pfisterer et al), 1995;17:406–412

Flow Cytometric DNA Measurements in Aspiration Biopsies and Surgical Specimens of Breast Cancer (Krogerus et al), 1995;17:309–313

Flow Cytometry of Breast Tumors: Relevance to Clinicopathology and Survival (Mallana Goud et al), 1995;17:265–271

Histometric Texture Analysis of DNA in Thin Sections from Breast Biopsies: Application to the Detection of Malignancy-Associated Changes in Carcinoma *in Situ* (Poulin et al), 1995;17:291–299

Image Analysis and Machine Learning Applied to Breast Cancer Diagnosis and Prognosis (Wolberg et al), 1995;17:77–87

Image Analysis Quantification in Hormone Receptor Assay of Mucinous Carcinoma of the Breast: Comparison with Biochemical Analysis (Ballouk et al), 1995;17:151–156

Image Analysis-Derived Morphometric Differences in Fine Needle Aspirates of Ductal and Lobular Breast Carcinoma (Yu et al), 1995;17:88–92

Immunohistochemical Detection and Significance of Axillary Lymph Node Micrometastases in Breast Carcinoma (Van Bogaert), 1995;17:75–76 (Letter)

Malignancy-Associated Changes in the Breast: Changes in Chromatin Distribution in Epithelial Cells in Normal-Appearing Tissue Adjacent to Carcinoma (Susnik et al), 1995;17:62–68

Management of Uncertainty in Breast Cancer Grading with Bayesian Belief Networks (Kronqvist et al), 1995;17:300–308

Quantitative Image Analysis of MIB-1 Immunoreactivity: A Comparison with Flow Cytometric Assessment of Proliferative Activity in Invasive Carcinoma of the Breast (Ostrowski et al), 1995;17:15–24

Structure Analysis of Breast Lesions Using Neighborhood Graphs (Beltrami et al), 1995;17:143–150

Bronchial neoplasms

Malignancy-Associated Changes in Bronchial Epithelial Cells in Biopsy Specimens (MacAulay et al), 1995;17:55–61

C

Calcification, pathologic

Digitization of Microcalcifications in Breast Radiographs: Correlation with Pathologic Data (Charpin et al), 1995;17:230–240

Carcinoma

Immunohistochemical Detection and Significance of Axillary Lymph Node Micrometastases in Breast Carcinoma (Van Bogaert), 1995;17:75–76 (Letter)

Malignancy-Associated Changes in the Breast: Changes in Chromatin Distribution in Epithelial Cells in Normal-Appearing Tissue Adjacent to Carcinoma (Susnik et al), 1995;17:62–68

Carcinoma, ductal

Image Analysis-Derived Morphometric Differences in Fine Needle Aspirates of Ductal and Lobular Breast Carcinoma (Yu et al), 1995;17:88–92

Carcinoma, mucinous

Image Analysis Quantification in Hormone Receptor Assay of Mucinous Carcinoma of the Breast: Comparison with Biochemical Analysis (Ballouk et al), 1995;17:151–156

Carcinoma, renal cell

Quantitative DNA Analysis in Renal Cell Carcinoma: Comparison of Flow and Image Cyto-

metry (Papadopoulos et al), 1995;17:272–275

Carcinoma, squamous cell

DNA Cytometric Abnormalities in Human Esophageal Squamous Intraepithelial and Invasive Carcinomas (Herlin et al), 1995;17:8–14

Carcinoma *in situ*

Histometric Texture Analysis of DNA in Thin Sections from Breast Biopsies: Application to the Detection of Malignancy-Associated Changes in Carcinoma *in Situ* (Poulin et al), 1995;17:291–299

Carotid arteries

Quantitative Image Analysis of Cell Proliferation After Balloon Catheter Injury in the Rabbit Carotid Artery (Robert et al), 1995;17:366–373

Cell nucleus

Automated Textural Analysis of Nuclear Chromatin: A Mathematical Morphology Approach (Giménez-Mas et al), 1995;17:39–47

Comparison of Nuclear Area Measurements Carried Out on Normal and Dysplastic Oral Smears (Cowpe et al), 1995;17:241–246

Nuclear Texture in Poorly Differentiated Small Round Cell Tumors: Image Analysis Study of Fine Needle Aspiration Material (García-Bonafé and Moragas), 1995;17:189–196

Volume-Weighted Mean Nuclear Volume and Nuclear Area in Advanced Ovarian Carcinoma: An Investigation of Sampling Methods, Sample Size and Reproducibility (Brinkhuis et al), 1995;17:284–290

Cervical neoplasms

Classifying Cervical Cells Using a Recurrent Neural Network by Building Basins of Attraction (Brouwer and MacAuley), 1995;17:197–203

Cervical smears

Polymerase Chain Reaction Analysis of Human Papillomavirus in Archival Cervical Cytologic Smears (Chua and Hjerpe), 1995;17:221–229

Chromatin

Automated Textural Analysis of Nuclear Chromatin: A Mathematical Morphology Approach (Giménez-Mas et al), 1995;17:39–47

Chromatin Structure Analysis Based on a Hierarchic Texture Model (Wolf et al), 1995;17:25–34

Chromatin Texture Analysis in Three-Dimensional Images from Confocal Scanning Laser Microscopy (Beil et al), 1995;17:323–331

Nuclear Texture Measurements in Normal Colorectal Glands (Hamilton et al), 1995;17:397–405

Stereotactic Biopsies from Astrocytic Tumors: Diagnostic Information Contributed by the Quantitative Chromatin Pattern Description (Salmon et al), 1995;17:332–343

Colonic neoplasms

Knowledge-Guided Segmentation and Morphometric Analysis of Colorectal Dysplasia (Hamilton et al), 1995;17:172–182

Colorectal neoplasms

Nuclear Texture Measurements in Normal Colorectal Glands (Hamilton et al), 1995;17:397–405

Prognostic Histomorphometry in Colorectal Adenocarcinoma (Carson et al), 1995;17:109–112

Computer-assisted diagnosis

Image Analysis and Machine Learning Applied to Breast Cancer Diagnosis and Prognosis (Wolberg et al), 1995;17:77–87

Computer-assisted image processing

Image Analysis and Machine Learning Applied to Breast Cancer Diagnosis and Prognosis (Wolberg et al), 1995;17:77–87

Computerized interactive morphometry

Computerized Interactive Morphometry in the Differential Diagnosis of Irradiated Prostates (Unger et al), 1995;17:100–108

Confocal microscopy, laser scanning

Chromatin Texture Analysis in Three-Dimensional Images from Confocal Scanning Laser Microscopy (Beil et al), 1995;17:323–331

Cytokeratin

Influence of Temperature on Long-Term Keratin Immunoreactivity for Oral Exfoliative Cytology (Ogden et al), 1995;17:35–38

D

Diagnosis, computer-assisted

Consensus Report of the European Society for Analytical Cellular Pathology Task Force on Standardization of Diagnostic DNA Image Cytometry (Böcking et al), 1995;17:1–7

Digital radiography

Digitization of Microcalcifications in Breast Radiographs: Correlation with Pathologic Data (Charpin et al), 1995;17:230–240

DNA

Comparison of DNA Measurement Performed by Flow and Image Cytometry of Embedded Breast Tissue Sections (Susnik et al), 1995;17:163–171

DNA Cytometric Abnormalities in Human Esophageal Squamous Intraepithelial and Invasive Carcinomas (Herlin et al), 1995;17:8–14

Flow and Image Cytometric DNA Measurements in Fine Needle Aspiration Samples of Prostatic

Neoplasms (Piaton et al), 1995;17:351–360
Flow Cytometric DNA Measurements in Aspiration Biopsies and Surgical Specimens of Breast Cancer (Krogerus et al), 1995;17:309–313
Histometric Texture Analysis of DNA in Thin Sections from Breast Biopsies: Application to the Detection of Malignancy-Associated Changes in Carcinoma *in Situ* (Poulin et al), 1995;17:291–299
Quantitative DNA Analysis in Renal Cell Carcinoma: Comparison of Flow and Image Cytometry (Papadopoulos et al), 1995;17:272–275

E

Esophageal neoplasms
DNA Cytometric Abnormalities in Human Esophageal Squamous Intraepithelial and Invasive Carcinomas (Herlin et al), 1995;17:8–14
Expert systems
Knowledge-Guided Segmentation and Morphometric Analysis of Colorectal Dysplasia (Hamilton et al), 1995;17:172–182

F

Flow cytometry
Biologic Characteristics of T1 Papillary Bladder Cancer: Flow Cytometric Study of Paraffin-Embedded Material (Bucci et al), 1995;17:121–128
Comparison Between Image and Flow Cytometry: *A Priori* Factors That Influence Technique (Bowman et al), 1995;17:276–283
Comparison of DNA Measurement Performed by Flow and Image Cytometry of Embedded Breast Tissue Sections (Susnik et al), 1995;17:163–171
Comparison of Fluorescence *in Situ* Hybridization and Flow Cytometric DNA Ploidy Analysis in Paraffin-Embedded Prostatic Adenocarcinoma Specimens (Lifson et al), 1995;17:93–99
DNA Flow Cytometry in Node-Positive Breast Cancer: Prognostic Value and Correlation with Morphologic and Clinical Factors (Pfisterer et al), 1995;17:406–412
Flow and Image Cytometric DNA Measurements in Fine Needle Aspiration Samples of Prostatic Neoplasms (Piaton et al), 1995;17:351–360
Flow Cytometric Characterization of Proliferation-Associated Nuclear Antigen (p105) During the Cell Cycle in Normal Lymphocytes and Promyelocytic Leukemia Cells (HL-60) (Qiao et al), 1995;17:183–188
Flow Cytometric DNA Measurements in Aspiration Biopsies and Surgical Specimens of Breast Cancer (Krogerus et al), 1995;17:309–313
Flow Cytometry of Breast Tumors: Relevance to Clinicopathology and Survival (Mallana Goud et al), 1995;17:265–271
Quantitative DNA Analysis in Renal Cell Carcinoma: Comparison of Flow and Image Cytometry (Papadopoulos et al), 1995;17:272–275
Quantitative Image Analysis of MIB-1 Immunoreactivity: A Comparison with Flow Cytometric Assessment of Proliferative Activity in Invasive Carcinoma of the Breast (Ostrowski et al), 1995;17:15–24

H

Histometric texture analysis
Histometric Texture Analysis of DNA in Thin Sections from Breast Biopsies: Application to the Detection of Malignancy-Associated Changes in Carcinoma *in Situ* (Poulin et al), 1995;17:291–299
Histomorphometry
Prognostic Histomorphometry in Colorectal Adenocarcinoma (Carson et al), 1995;17:109–112
HL-60
Flow Cytometric Characterization of Proliferation-Associated Nuclear Antigen (p105) During the Cell Cycle in Normal Lymphocytes and Promyelocytic Leukemia Cells (HL-60) (Qiao et al), 1995;17:183–188
Hodgkin's disease
Quantitative Estimation of Mast Cells in Hodgkin's Disease and Reactive Lymphoid/Hyperplasia in Aspiration Cytology Smears (Dey and Karmakar), 1995;17:219–220 (Letter)
Hopfield network
Classifying Cervical Cells Using a Recurrent Neural Network by Building Basins of Attraction (Brouwer and MacAuley), 1995;17:197–203

I

Image analysis, computer-assisted
Automated Textural Analysis of Nuclear Chromatin: A Mathematical Morphology Approach (Giménez-Mas et al), 1995;17:39–47
Bleaching of Melanin Before Image Cytometry of the DNA Content of Pigmented Skin Tumors (Talve et al), 1995;17:344–350

Chromatin Structure Analysis Based on a Hierarchic Texture Model (Wolf et al), 1995;17:25–34
Computer-Assisted and Visual Methods of Assessing Cellular Proliferation in Tissue Sections from Non-Hodgkin's Lymphoma: A Comparison (Hendricks et al), 1995;17:383–388
Consensus Report of the European Society for Analytical Cellular Pathology Task Force on Standardization of Diagnostic DNA Image Cytometry (Böcking et al), 1995;17:1–7
DNA Cytometric Abnormalities in Human Esophageal Squamous Intraepithelial and Invasive Carcinomas (Herlin et al), 1995;17:8–14
DNA Tetraploidy in Feulgen-Stained Bladder Washings Assessed by Image Cytometry (Kline et al), 1995;17:129–134
Flow and Image Cytometric DNA Measurements in Fine Needle Aspiration Samples of Prostatic Neoplasms (Piaton et al), 1995;17:351–360
Image Analysis Quantification in Hormone Receptor Assay of Mucinous Carcinoma of the Breast: Comparison with Biochemical Analysis (Ballouk et al), 1995;17:151–156
Image Analysis-Derived Morphometric Differences in Fine Needle Aspirates of Ductal and Lobular Breast Carcinoma (Yu et al), 1995;17:88–92
Image Segmentation of Cribriform Gland Tissue (Thompson et al), 1995;17:314–322
Knowledge-Guided Segmentation and Morphometric Analysis of Colorectal Dysplasia (Hamilton et al), 1995;17:172–182
Malignancy-Associated Changes in the Breast: Changes in Chromatin Distribution in Epithelial Cells in Normal-Appearing Tissue Adjacent to Carcinoma (Susnik et al), 1995;17:62–68
Morphologic Quantification of Blood Platelets by Image Analysis (Filler et al), 1995;17:361–365
Nuclear Texture in Poorly Differentiated Small Round Cell Tumors: Image Analysis Study of Fine Needle Aspiration Material (García-Bonafé and Moragas), 1995;17:189–196
Nuclear Texture Measurements in Normal Colorectal Glands (Hamilton et al), 1995;17:397–405
Quantitative DNA Analysis in Renal Cell Carcinoma: Comparison of Flow and Image Cytometry (Papadopoulos et al), 1995;17:272–275
Quantitative Image Analysis of Cell Proliferation After Balloon Catheter Injury in the Rabbit Carotid Artery (Robert et al), 1995;17:366–373
Quantitative Image Analysis of MIB-1 Immunoreactivity: A Comparison with Flow Cytometric Assessment of Proliferative Activity in Invasive Carcinoma of the Breast (Ostrowski et al), 1995;17:15–24
Small Round Cell Tumors of Bone and Soft Tissue: A Morphometric and Stereometric Comparative Analysis of 119 Cases (Callaghan et al), 1995;17:374–382

Image cytometry

Comparison Between Image and Flow Cytometry: *A Priori* Factors That Influence Technique (Bowman et al), 1995;17:276–283
Comparison of DNA Measurement Performed by Flow and Image Cytometry of Embedded Breast Tissue Sections (Susnik et al), 1995;17:163–171
Consensus Report of the European Society for Analytical Cellular Pathology Task Force on Standardization of Diagnostic DNA Image Cytometry (Böcking et al), 1995;17:1–7
Use of High-Resolution Cytometry in Predicting the Biologic Behavior of T1 Adenocarcinoma of the Lung (Ikeda et al), 1995;17:69–74

Image processing, computer-assisted

Computer-Derived Nuclear "Grade" and Breast Cancer Prognosis (Wolberg et al), 1995;17:257–264
A Hybrid Neural and Statistical Classifier System for Histopathologic Grading of Prostatic Lesions (Stotzka et al), 1995;17:204–218

Immunocytochemistry

Influence of Temperature on Long-Term Keratin Immunoreactivity for Oral Exfoliative Cytology (Ogden et al), 1995;17:35–38

Immunohistochemistry

Correlation Between Ploidy Status, ERB-B2 and P53 Immunohistochemical Expression in Primary Breast Carcinoma (Midulla et al), 1995;17:157–162
Immunohistochemical Detection and Significance of Axillary Lymph Node Micrometastases in Breast Carcinoma (Van Bogaert), 1995;17:75–76 (Letter)

***In situ* hybridization, fluorescence**

Comparison of Fluorescence *in Situ* Hybridization and Flow Cytometric DNA Ploidy Analysis in Paraffin-Embedded Prostatic Adenocarcinoma Specimens (Lifson et al), 1995;17:93–99

Interleukin-2

Expression of Lectin, Interleukin-2 and Histopathologic Blood Group Binding Sites in Prostate Cancer and Its Correlation with Integrated Optical Density and Syntactic Structure Analysis (Kayser et al), 1995;17:135–142

K

Ki-67
Computer-Assisted and Visual Methods of Assessing Cellular Proliferation in Tissue Sections from Non-Hodgkin's Lymphoma: A Comparison (Hendricks et al), 1995;17:383–388

L

Lectins
Expression of Lectin, Interleukin-2 and Histopathologic Blood Group Binding Sites in Prostate Cancer and Its Correlation with Integrated Optical Density and Syntactic Structure Analysis (Kayser et al), 1995;17:135–142

Lung neoplasms
Use of High-Resolution Cytometry in Predicting the Biologic Behavior of T1 Adenocarcinoma of the Lung (Ikeda et al), 1995;17:69–74

Lymph nodes
Immunohistochemical Detection and Significance of Axillary Lymph Node Micrometastases in Breast Carcinoma (Van Bogaert), 1995;17:75–76 (Letter)
Quantitative Estimation of Mast Cells in Hodgkin's Disease and Reactive Lymphoid/Hyperplasia in Aspiration Cytology Smears (Dey and Karmakar), 1995;17:219–220 (Letter)

Lymphocytes
Flow Cytometric Characterization of Proliferation-Associated Nuclear Antigen (p105) During the Cell Cycle in Normal Lymphocytes and Promyelocytic Leukemia Cells (HL-60) (Qiao et al), 1995;17:183–188
Neural Networks as an Aid in the Diagnosis of Lymphocyte-Rich Effusions (Truong et al), 1995;17:48–54

Lymphoma, non-Hodgkin's
Computer-Assisted and Visual Methods of Assessing Cellular Proliferation in Tissue Sections from Non-Hodgkin's Lymphoma: A Comparison (Hendricks et al), 1995;17:383–388

M

Malignancy-associated changes
Histometric Texture Analysis of DNA in Thin Sections from Breast Biopsies: Application to the Detection of Malignancy-Associated Changes in Carcinoma *in Situ* (Poulin et al), 1995;17:291–299
Malignancy-Associated Changes in Bronchial Epithelial Cells in Biopsy Specimens (MacAulay et al), 1995;17:55–61
Malignancy-Associated Changes in the Breast: Changes in Chromatin Distribution in Epithelial Cells in Normal-Appearing Tissue Adjacent to Carcinoma (Susnik et al), 1995;17:62–68

Malignant melanoma
Bleaching of Melanin Before Image Cytometry of the DNA Content of Pigmented Skin Tumors (Talve et al), 1995;17:344–350

Mammography
Digitization of Microcalcifications in Breast Radiographs: Correlation with Pathologic Data (Charpin et al), 1995;17:230–240

Mast cells
Quantitative Estimation of Mast Cells in Hodgkin's Disease and Reactive Lymphoid/Hyperplasia in Aspiration Cytology Smears (Dey and Karmakar), 1995;17:219–220 (Letter)

Mathematical morphology
Automated Textural Analysis of Nuclear Chromatin: A Mathematical Morphology Approach (Giménez-Mas et al), 1995;17:39–47
Chromatin Structure Analysis Based on a Hierarchic Texture Model (Wolf et al), 1995;17:25–34

MIB-1 immunoreactivity
Quantitative Image Analysis of MIB-1 Immunoreactivity: A Comparison with Flow Cytometric Assessment of Proliferative Activity in Invasive Carcinoma of the Breast (Ostrowski et al), 1995;17:15–24

Microscopy, electron, scanning
Effects of Radiotherapy on Oral Epithelium: Quantitative Cytology Using Light and Scanning Electron Microscopy (Soames and Macleod), 1995;17:389–396

Monoclonal gammopathies
DNA Aneuploidy, Increased Proliferation and Nuclear Area of Plasma Cells in Monoclonal Gammopathy of Undetermined Significance and Multiple Myeloma (Leo et al), 1995;17:113–120

Mouth neoplasms
Comparison of Nuclear Area Measurements Carried Out on Normal and Dysplastic Oral Smears (Cowpe et al), 1995;17:241–246
Effects of Radiotherapy on Oral Epithelium: Quantitative Cytology Using Light and Scanning Electron Microscopy (Soames and Macleod), 1995;17:389–396
Influence of Temperature on Long-Term Keratin Immunoreactivity for Oral Exfoliative Cytol-

ogy (Ogden et al), 1995;17:35–38

Multiple myeloma

DNA Aneuploidy, Increased Proliferation and Nuclear Area of Plasma Cells in Monoclonal Gammopathy of Undetermined Significance and Multiple Myeloma (Leo et al), 1995;17:113–120

N

Neighborhood graphs

Structure Analysis of Breast Lesions Using Neighborhood Graphs (Beltrami et al), 1995;17:143–150

Neoplasm metastasis

Immunohistochemical Detection and Significance of Axillary Lymph Node Micrometastases in Breast Carcinoma (Van Bogaert), 1995;17:75–76 (Letter)

Neural networks (computer)

Classifying Cervical Cells Using a Recurrent Neural Network by Building Basins of Attraction (Brouwer and MacAuley), 1995;17:197–203

A Hybrid Neural and Statistical Classifier System for Histopathologic Grading of Prostatic Lesions (Stotzka et al), 1995;17:204–218

Neural Networks as an Aid in the Diagnosis of Lymphocyte-Rich Effusions (Truong et al), 1995;17:48–54

Neuroblastoma

Small Round Cell Tumors of Bone and Soft Tissue: A Morphometric and Stereometric Comparative Analysis of 119 Cases (Callaghan et al), 1995;17:374–382

Neuroectodermal tumor, peripheral

Small Round Cell Tumors of Bone and Soft Tissue: A Morphometric and Stereometric Comparative Analysis of 119 Cases (Callaghan et al), 1995;17:374–382

Nevus, blue

Bleaching of Melanin Before Image Cytometry of the DNA Content of Pigmented Skin Tumors (Talve et al), 1995;17:344–350

Nevus, pigmented

Bleaching of Melanin Before Image Cytometry of the DNA Content of Pigmented Skin Tumors (Talve et al), 1995;17:344–350

Nuclear area

Comparison of Nuclear Area Measurements Carried Out on Normal and Dysplastic Oral Smears (Cowpe et al), 1995;17:241–246

Volume-Weighted Mean Nuclear Volume and Nuclear Area in Advanced Ovarian Carcinoma: An Investigation of Sampling Methods, Sample Size and Reproducibility (Brinkhuis et al), 1995;17:284–290

Nuclear volume

Volume-Weighted Mean Nuclear Volume and Nuclear Area in Advanced Ovarian Carcinoma: An Investigation of Sampling Methods, Sample Size and Reproducibility (Brinkhuis et al), 1995;17:284–290

Nucleolus organizer regions

Computer-Assisted and Visual Methods of Assessing Cellular Proliferation in Tissue Sections from Non-Hodgkin's Lymphoma: A Comparison (Hendricks et al), 1995;17:383–388

O

Ovarian neoplasms

Volume-Weighted Mean Nuclear Volume and Nuclear Area in Advanced Ovarian Carcinoma: An Investigation of Sampling Methods, Sample Size and Reproducibility (Brinkhuis et al), 1995;17:284–290

P

p105

Flow Cytometric Characterization of Proliferation-Associated Nuclear Antigen (p105) During the Cell Cycle in Normal Lymphocytes and Promyelocytic Leukemia Cells (HL-60) (Qiao et al), 1995;17:183–188

Pancreatic neoplasms

Comparison Between Image and Flow Cytometry: *A Priori* Factors That Influence Technique (Bowman et al), 1995;17:276–283

Papillomaviruses, human

Polymerase Chain Reaction Analysis of Human Papillomavirus in Archival Cervical Cytologic Smears (Chua and Hjerpe), 1995;17:221–229

Perceptrons

Classifying Cervical Cells Using a Recurrent Neural Network by Building Basins of Attraction (Brouwer and MacAuley), 1995;17:197–203

Peritoneal effusion

Neural Networks as an Aid in the Diagnosis of Lymphocyte-Rich Effusions (Truong et al), 1995;17:48–54

Planimetry

Morphologic and Planimetric Diagnosis of Folli-

cular Thyroid Lesions on Fine Needle Aspiration Cytology (Fadda et al), 1995;17:247–256

Platelet activation

Morphologic Quantification of Blood Platelets by Image Analysis (Filler et al), 1995;17:361–365

Pleural effusion

Neural Networks as an Aid in the Diagnosis of Lymphocyte-Rich Effusions (Truong et al), 1995;17:48–54

Ploidies

Biologic Characteristics of T1 Papillary Bladder Cancer: Flow Cytometric Study of Paraffin-Embedded Material (Bucci et al), 1995;17:121–128

Comparison of Fluorescence *in Situ* Hybridization and Flow Cytometric DNA Ploidy Analysis in Paraffin-Embedded Prostatic Adenocarcinoma Specimens (Lifson et al), 1995;17:93–99

Correlation Between Ploidy Status, ERB-B2 and P53 Immunohistochemical Expression in Primary Breast Carcinoma (Midulla et al), 1995; 17:157–162

DNA Cytometric Abnormalities in Human Esophageal Squamous Intraepithelial and Invasive Carcinomas (Herlin et al), 1995;17:8–14

DNA Flow Cytometry in Node-Positive Breast Cancer: Prognostic Value and Correlation with Morphologic and Clinical Factors (Pfisterer et al), 1995;17:406–412

DNA Tetraploidy in Feulgen-Stained Bladder Washings Assessed by Image Cytometry (Kline et al), 1995;17:129–134

Polymerase chain reaction

Polymerase Chain Reaction Analysis of Human Papillomavirus in Archival Cervical Cytologic Smears (Chua and Hjerpe), 1995;17:221–229

Prognosis

Computer-Derived Nuclear "Grade" and Breast Cancer Prognosis (Wolberg et al), 1995;17:257–264

DNA Flow Cytometry in Node-Positive Breast Cancer: Prognostic Value and Correlation with Morphologic and Clinical Factors (Pfisterer et al), 1995;17:406–412

Image Analysis and Machine Learning Applied to Breast Cancer Diagnosis and Prognosis (Wolberg et al), 1995;17:77–87

Prognostic Histomorphometry in Colorectal Adenocarcinoma (Carson et al), 1995;17:109–112

Proliferating cell nuclear antigen

Quantitative Image Analysis of Cell Proliferation After Balloon Catheter Injury in the Rabbit Carotid Artery (Robert et al), 1995;17:366–373

Promyelocytic leukemia, acute

Flow Cytometric Characterization of Proliferation-Associated Nuclear Antigen (p105) During the Cell Cycle in Normal Lymphocytes and Promyelocytic Leukemia Cells (HL-60) (Qiao et al), 1995;17:183–188

Prostate neoplasms

Chromatin Texture Analysis in Three-Dimensional Images from Confocal Scanning Laser Microscopy (Beil et al), 1995;17:323–331

Prostate

Image Segmentation of Cribriform Gland Tissue (Thompson et al), 1995;17:314–322

Prostatic neoplasms

Comparison of Fluorescence *in Situ* Hybridization and Flow Cytometric DNA Ploidy Analysis in Paraffin-Embedded Prostatic Adenocarcinoma Specimens (Lifson et al), 1995;17:93–99

Computerized Interactive Morphometry in the Differential Diagnosis of Irradiated Prostates (Unger et al), 1995;17:100–108

Expression of Lectin, Interleukin-2 and Histopathologic Blood Group Binding Sites in Prostate Cancer and Its Correlation with Integrated Optical Density and Syntactic Structure Analysis (Kayser et al), 1995;17:135–142

Flow and Image Cytometric DNA Measurements in Fine Needle Aspiration Samples of Prostatic Neoplasms (Piaton et al), 1995;17:351–360

A Hybrid Neural and Statistical Classifier System for Histopathologic Grading of Prostatic Lesions (Stotzka et al), 1995;17:204–218

R

Rabbits

Quantitative Image Analysis of Cell Proliferation After Balloon Catheter Injury in the Rabbit Carotid Artery (Robert et al), 1995;17:366–373

Radiotherapy

Computerized Interactive Morphometry in the Differential Diagnosis of Irradiated Prostates (Unger et al), 1995;17:100–108

Effects of Radiotherapy on Oral Epithelium: Quantitative Cytology Using Light and Scanning Electron Microscopy (Soames and Macleod), 1995;17:389–396

Receptors, estrogen

Image Analysis Quantification in Hormone Receptor Assay of Mucinous Carcinoma of the Breast: Comparison with Biochemical Analysis

(Ballouk et al), 1995;17:151–156

Receptors, progesterone

Image Analysis Quantification in Hormone Receptor Assay of Mucinous Carcinoma of the Breast: Comparison with Biochemical Analysis (Ballouk et al), 1995;17:151–156

Reflection contrast microscopy

Morphologic Quantification of Blood Platelets by Image Analysis (Filler et al), 1995;17:361–365

S

S-phase fraction

DNA Flow Cytometry in Node-Positive Breast Cancer: Prognostic Value and Correlation with Morphologic and Clinical Factors (Pfisterer et al), 1995;17:406–412

Sarcoma, Ewing's

Small Round Cell Tumors of Bone and Soft Tissue: A Morphometric and Stereometric Comparative Analysis of 119 Cases (Callaghan et al), 1995;17:374–382

Small round cell tumor

Small Round Cell Tumors of Bone and Soft Tissue: A Morphometric and Stereometric Comparative Analysis of 119 Cases (Callaghan et al), 1995;17:374–382

Stereotaxic techniques

Stereotactic Biopsies from Astrocytic Tumors: Diagnostic Information Contributed by the Quantitative Chromatin Pattern Description (Salmon et al), 1995;17:332–343

Structure analysis

Structure Analysis of Breast Lesions Using Neighborhood Graphs (Beltrami et al), 1995;17:143–150

T

Thyroid neoplasms

Morphologic and Planimetric Diagnosis of Follicular Thyroid Lesions on Fine Needle Aspiration Cytology (Fadda et al), 1995;17:247–256

V

Vaginal smears

Polymerase Chain Reaction Analysis of Human Papillomavirus in Archival Cervical Cytologic Smears (Chua and Hjerpe), 1995;17:221–229
